Delivering Excellence

3 LEVELS OF SECURITY

Get the right fraud protection with 3 levels of security.

- *Essential* – standard, affordable security for businesses with a low risk of check fraud
- *Classic* – extra protection with checks that are more difficult to replicate or manipulate
- *Premier* – sophisticated blend of security features for the highest level of protection

COUNTLESS OPTIONS

- Dozens of color and background combinations
- Formats that work with nearly every accounting software
- Logos for preprinted checks
- Extra services such as automatic shipment scheduling, reverse numbering, special packaging and more

QUICK TURNAROUND

TABLE OF CONTENTS

3 Security Levels Deliver the Right Fraud Protection

Choose Essential, Classic or Premier check stock for the level of fraud protection you need.

All check stock is constructed of high-quality, bank-recommended 24# paper. All checks include the required 5/8" clear zone as well as a target box for accurate MICR line placement.

CHECK SECURITY AND FEATURES EXPLAINED
WARNING BOX
Area on the check back that lists the security features included for quick verification.

VOID PANTOGRAPH
Displays when checks are photocopied or scanned on most machines.
MICROPRINTING
Text is printed at $1/100$ inch so it appears as a line, but can be verified with a magnifying glass. If scanned or photocopied, the line will look solid.

ARTIFICIAL WATERMARK
A watermark image is printed on the paper and is visible when viewed at an angle.

TRUE WATERMARK
A true watermark is placed in the paper fibers at the time the paper is manufactured. View by holding up to a light source.

FLUORESCENT FIBERS
Fibers embedded in the sheet are visible only under ultraviolet light.

CHEMICAL PROTECTION
Chemicals in the paper react when bleach or other solvents are used to change the check.

PRISMATIC PANTOGRAPH
Checks are printed with graduated colors which are the most difficult types of checks to photocopy or scan.

THERMOCHROMATIC INK
Heat sensitive ink block will fade and reappear when held between thumb and finger or breathed on.

ORIGINAL DOCUMENT BACKER
Light grey printing on the back disappears when photocopied.

TONER ADHESION
Causes toner to bond permanently to paper. Attempts to remove information causes paper to tear.

COIN REACTIVE
Invisible layer on back of check changes color when rubbed with a coin.

MOBILE DEPOSIT
A check box indicating selection of the mobile deposit feature is available on the back of each check.
HOLOGRAM
A photographic technique used to create a multi-dimensional image on a foil seal which is fused to the check stock.

PADLOCK ICON
Alerts to security features listed on the back.

Checks Made for your Software

If you're not sure which check you need, please call. We're happy to help!

NOTE: Checks listed in bold are the most common formats. Call if yours is not listed - we can help!

CHECKMAGIC
Blank Check: Top, perfs: $3^1/_2$", 7" ($10^1/_2$" optional)

Bottom, perfs 4", $7^1/_2$"

Preprinted: L1313, L1317, L1330, L80138, L80139, **L81004**, **L81004P**, **L81013**, L81065

Envelopes: E9156414, E9150814, E9150014, E91500S14

Sage 500 ERP (formerly MAS 500)
Preprinted: L1313, L1317, L80138, L80139, **L81004**, **L81004P**, **L81013**, L81065

Envelopes: CALL

VERSA CHECK
Gold, Platinum, Silver
Blank Check: Top, perfs: $3^1/_2$", 7" ($10^1/_2$" optional)
Bottom, perfs: 4", $7^1/_2$"
3up Business, perfs: $3^1/_2$", 7", $10^1/_2$"

Envelopes: 6861, 6861S

Note: Some blank checks have an additional $10^1/_2$" perf to allow for easy placement in envelope.

All brand names are the property of their respective companies. This list is not exhaustive. Call for checks compatible with ANY software not shown here.

Blank Check Stock Streamlines Printing & Increases Security

Use the same stock for all accounts and store bank information securely in your computer, not on preprinted checks

EASY ORDERING

1| Choose the right level of security
- Essential Security (Good) p. 5
- Classic Security (Better) p. 6
- Premier Security (Best) p. 7

2| Find your perforation positions
Line up a current check with the top of the guide on p. 4 and determine perforation positions.

3| Select a background pantograph and color from those shown

Essential Security

Ideal for businesses with a low risk of fraud

GOOD

Basic security checks that meet all bank guidelines at an economical price.

- Padlock Icon
- Warning Box
- VOID pantograph (except lattice)
- Security Screen
- Artificial watermark
- Microprinting
- Original Document Backer
- Mobile Deposit

Minimum quantity 500 checks

>> **QUICK TURNAROUND**

>> **SOFTWARE COMPATIBILITY**
Checks for most accounting packages–call if yours isn't listed on p. 4

Preprinted Checks Deliver Reliability & Efficiency

Software-compatible checks are ready to quickly print your check data

EASY ORDERING

1| Select your check format
Start with the software compatibility chart on p. 4 to find the format that works for you. This is critical for proper data alignment when printing. Call us with any compatibility questions.

2| Select your security check paper stock, p. 10
Choose the color, background pantograph and security level that's right for you.

3| Add your bank and check data, p. 11
Have an existing check available to make ordering easier.

SOFTWARE COMPATIBILITY Refer to the chart on page 4 for compatibility with popular software. Call us if you don't see the software you are using.

STEP I

Select Preprinted Check Format

- Our most popular formats are shown here, but we have hundreds more.
- Most checks can be ordered with multiple signature lines.

Efficiently Process a Large Volume of Checks with Pressure Seal

PRESSURE SEAL CHECKS

Print checks on special blank security stock that has glue along the edges. Then, fold and seal the check with pressure seal equipment for easy mailing. Pressure seal checks are best for a large volume of checks for multiple accounts. It is critical to ensure compatibility with your accounting software (so data prints in the right locations), and pressure seal equipment (so the glue pattern aligns for proper sealing). **Request free samples!**

Minimum quantity 500.

PRESSURE SEAL CHECKS

### MULTI-PURPOSE PRESSURE SEAL FORMS

Use multi-purpose pressure seal forms for statements, invoices and other business forms.
BLANK PRESSURE SEAL FORMS

Item #	Size	Fold Type
80349	8$1/2$" x 11"	Z
80346	8$1/2$" x 14"	Eccentric Z

When pressure is applied, a permanent glue bond is formed.

The check is folded, sealed and ready to mail in one step.
